

Elastic polymer series

HC-R4

Elastic material. A distinctive face.

Medium-soft

307 × 307

Tile size / mm

15.38 mm

Thickness

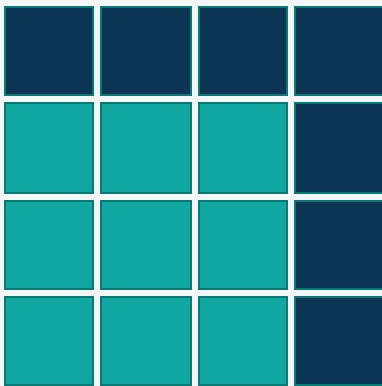

425 g

Weight per tile

Soft plastic elastomer

307 mm modules with a patterned finish

HC-R4 pairs a visibly patterned surface with a 15.38 mm elastomer profile. Its 307 mm tile size gives this model its own layout grid within the elastic series.

Module layout concept

≈ 0.0942 m²

Nominal area per tile. A 307 × 307 mm module gives your plan a clear grid for color zones and edges.

Allow for cuts, edges and spare tiles when ordering.

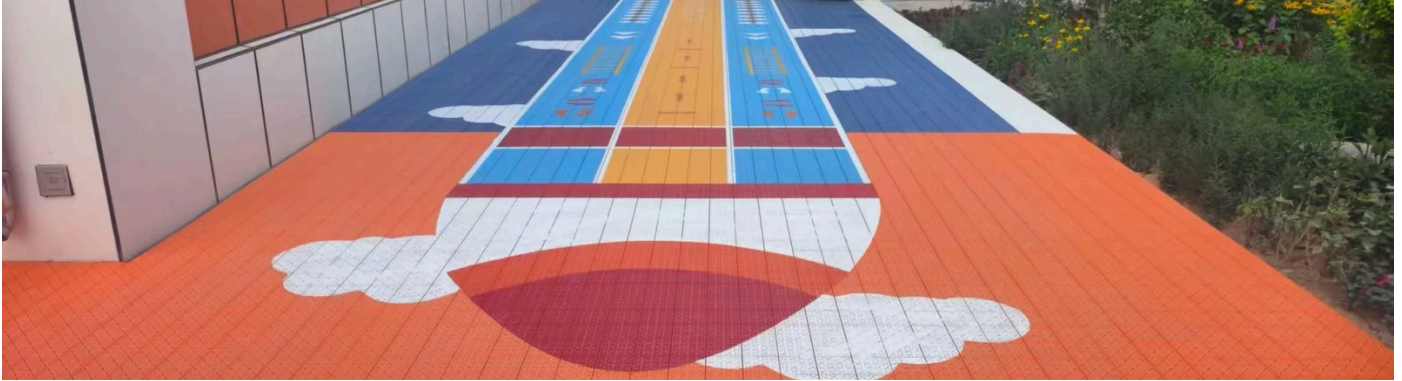

01 Elasticity through the material

A soft plastic elastomer defines this series. Choose the sample feel around the daily activity and user group.

02 Make the space clear with color

Separate playing and surrounding areas with contrasting colors. Confirm the available colors and line-marking plan for your project.

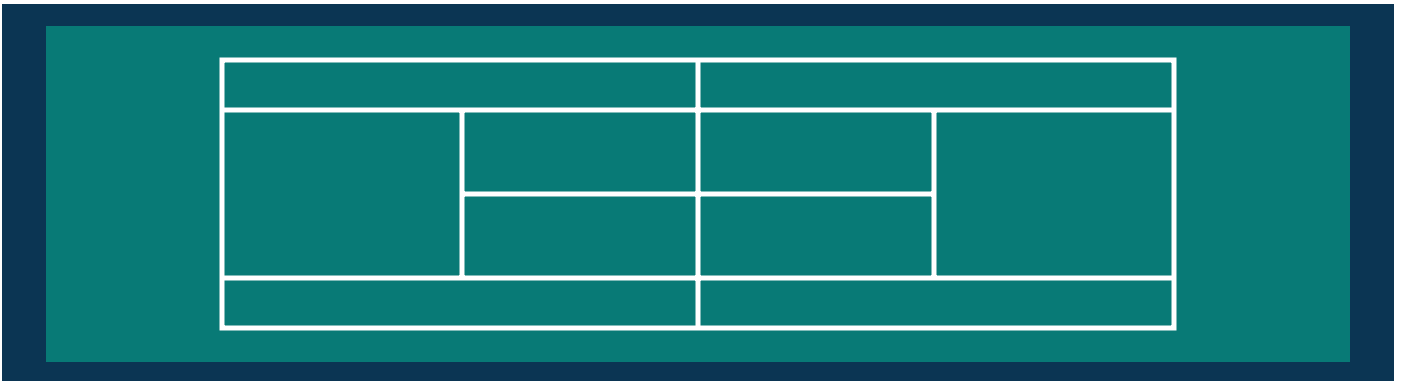

Space for daily movement

Everyday children's activity

For ground-level games, movement and ordinary activity zones. An elastic material and color layout help shape the space around its daily use.

Application illustration

Recreational tennis

An interlocking tile option for tennis-focused spaces. Select colors for the playing and surrounding areas, then confirm the venue's ball-response and traction requirements.

Layout concept · not to scale

For ground-level activity. Areas beneath elevated play equipment need a separately specified impact-protection system.

Choose your configuration

307 × 307 mm · Tile length × width

HC-R4	Medium-soft
Thickness	15.38 mm
Tile weight	425 g
Tiles / carton	68
Area / carton	6.4089 m ²
Gross / carton	30.35 kg

Packing: Medium-soft

Net: 28.9 kg · 64 × 64 × 28 cm

Approximate carton dimensions. Pallets and extra packaging are additional.

Installation planning

Use a stable, level base. Coordinate drainage, edges, expansion gaps and line markings with the installer.
